

資源少なく、もっと軽く！

Low resources, more lightweight!

冷間鍛造成形技術

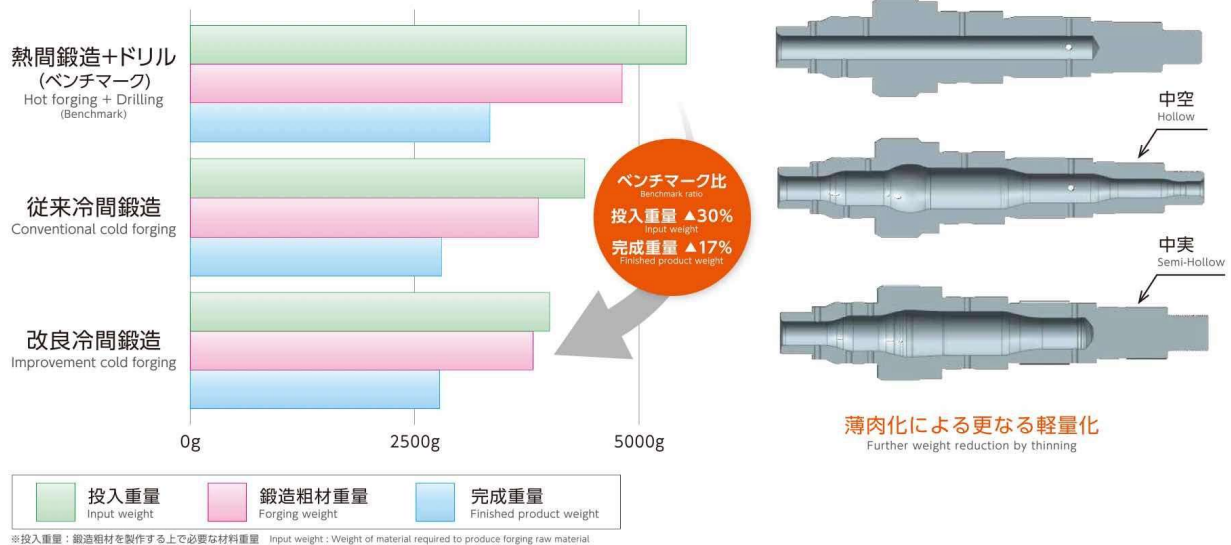

Cold Forming Technology

コンセプト concept

材料資源 MIN 化を追求した薄肉化・軽量化・工程削減
Thinner wall, lighter weight, and process reduction in pursuit of material resource MIN

製品重量比 Product weight ratio

中実形状であるが従来に対し軽量化 (完成重減) を実現

Solid shape, but lighter than conventional products (Finished weight reduction)
